

# Important Notice to Parents

For the protection of your camper's privacy , and for continuity in the program and the building of good relationships at camp, **cell phones are not permitted.** If you need to reach your camper, call 540 2MY-CAMP 8:00 a.m. to 1:00 pm to reach our registrar. You may leave messages at any time and we will pick them up throughout the day. For medical emergencies you may reach the nurse's cabin at 540-269-2265.

If your camper has a digital camera, it is permitted in camp. However, all cameras will be collected on Friday and **turned over directly to you, the parent.** It will be your responsibility to review all photos. Even though the campers are supervised 24 hours a day, there may be opportunities in close living quarters for campers to take inappropriate photos. Young people often get caught up in group settings, and do things without thinking that they would never do in their own home. We are counting on you to screen all pictures and immediately delete any that are inappropriate. This prompt action will protect the privacy of your camper and others participating in our program.
